Agribusiness is the coordination of all activities that contribute to the production, processing, marketing, distribution, financing and development of agricultural commodities and resources. This includes food, fiber, wood products, natural resources, horticulture, and other plant and animal products and services. Agribusiness is a high-tech industry that uses satellite systems, computer databases, spreadsheets, biotechnology and many other innovations to increase efficiency and profitability.

**Agricultural Salesperson**

**EMployment Outlook**

Market pressures will continue the long-term trend toward consolidation into fewer and larger farms and ranches over the next decade. Career opportunities will continue to grow in agribusiness, which supports the production of agricultural commodities. Jobs in the processing and marketing of agriculture products are available all across our state.
